We were friends since 15. You were a brother and friend. I remember surfing waves in the kayak on Dania pier. The trips to the keys and camping on christmas tree island. At get togethers at my house on Mckinley, you would always be talking to my dad and get fatherly advice, he looked at you like a son. Hiring you to work at the restoration shop and then golfing and drinking with Rosie on our lunch break lol. She and my cousin Elliott always said you were a true friend and loved you so much. I remember driving you around all night in the crown vic when we were teens when you were depressed. I remember taking you for a ride in your first turbo car and the smile it brought to your face. I remember the hard-core shows, the u-pull-it runs, the sleeping on the beach when your girl was always playing games with your head. Im so sorry I never got to tell you, you meant more to me than her. I know if you heard anyone say they wished I died instead of you, the man you were would be disgusted to hear that. I know you'd want us to move on and be happy and keep your memory positively and not used as a hurtful tool. You were loved by many, unfortunately manipulated and used by some, and never forgotten by everyone that knew you. I will always keep you alive in good memory, and one day we will meet again to laugh at all the b.s.. Love you brother.
